

MSCI M620: Mid-semester evaluation

We are now halfway done with the course. Could you please fill out the questions below? Your suggestions at this time will allow us to make changes in the course BEFORE the end of the semester. Thank you!!

1. What is “working” for you in this course? What components during our Friday class do you find valuable and worthwhile? What items are most helpful to you?

2. What ISN'T working for you in this course? Are there items that simply aren't helpful?

3. What would you like to see more of in this course? More activities? More discussions of problems during teaching? New guest speakers?
